PROFESSIONAL SUMMARY

Product Designer with 3+ years of experience designing scalable B2B and B2C digital products across CRM, real estate, automotive, and e-commerce ecosystems. Experienced in enterprise workflow optimization, consumer product design, and AI-assisted design workflows across platforms including Zameen, Bayut, OLX, and Dubizzle.

WORK EXPERIENCE

Dubizzle Labs | Product Designer | Lahore, Pakistan | Jun 2024 - Present

- Designed CRM and consumer-facing experiences across Zameen, Bayut, OLX, and Dubizzle Cars, improving task efficiency for over 2000 internal users.
- Optimized enterprise CRM systems (PropForce, PropOne, PropGo, PropPlus, Jarvis), reducing workflow complexity by ~20% for sales and affiliate operations.
- Simplified operational workflows for sales, affiliate, and internal teams, decreasing average task completion time by 15-25%.
- Conducted workflow analysis, mapped user journeys, and translated business and user requirements into scalable UX solutions for enterprise and consumer products.
- Created reusable UX patterns and design components adopted across 5+ platforms, improving interface consistency and speeding up product delivery by ~30%.
- Collaborated with PMs, engineers, and stakeholders across multiple teams to deliver cross-platform features ahead of deadlines.
- Contributed to affiliate and investor platforms (Bayut Affiliates, Zameen Affiliates, Investor Hub, PropForce Affiliates), increasing onboarding completion rate by 10-15%.
- Mentored 2 junior designers, improving team delivery quality and consistency through structured design reviews.
- Leveraged AI-assisted workflows with Cursor and Claude to accelerate ideation, prototyping, and design execution, cutting prototyping time by ~25%.

Dev Dimensions | UX/UI Designer | Lahore, Pakistan | Jul 2023 - Jun 2024

- Designed responsive web and mobile interfaces for consumer and business products, improving usability scores for 3+ client projects by 10-12%.

- Developed user flows, wireframes, prototypes, and high-fidelity interfaces in collaboration with developers and senior designers, reducing development iterations by ~20%.
- Built UI foundations (typography, spacing, responsive design) that were implemented across 2+ multi-device client products, enhancing interface consistency and accessibility.

INDEPENDENT PRODUCTS & FOUNDER EXPERIENCE

The Bare Edit | Founder, Product Designer, Cursor AI

- Designed a minimal jewellery e-commerce experience focused on premium UX and conversion-focused customer journeys.

Protect It | Founder, Product Designer, Cursor AI

- Built an automotive e-commerce platform with scalable workflows for inventory and order management.

AFJA Trading | Product Designer, Cursor AI

- Designed a responsive corporate website focused on improving brand clarity and digital presence.
